PART OF HISTORY...

Silly Venture was supposed to be only a single episode in my scene activities back in year **2000** - It was a rescue to keep the great tradition of events taking place at Easter in Germany (there was no prospect for another great edition of **Error in Line** in Dresden.) Somehow things went the other way. After the rather long break we met again in **2004**, and since **2010** we have been meeting constantly until **2014**.

In 2016 I've picked up the gauntlet once again, being conscious of how many things we have achieved together. Integration of the international Atari community from the Atari 2600 to the Jaguar on such a huge scale seemed to be a rather impossible thing beforehand. Now after a few years we are one big happy Family !

For this reason, I've decided to continue my "Silly Venture" adventure :)

HERE ARE SOME PHOTOS OF THE PREVIOUS EDITIONS:
