Thank you very much!

📅 2023-07-24

We are in the process of creating the SV2023SE schedule, but we can already tell you one of its points - Skipp/Nah-Kolor will appear behind the music console with a strong dose of **electro**, **breakbeat** & **drum'n'bass**! Party regulars will surely know Skipp's achievements - this time, especially for SV2023SE, it will be enriched with an **Atari** thread!

Thanks to m00nie/MSB for the poster!

I encourage you to order **SV2023SE** T-shirts! We are waiting for your completed forms until July 31st (Monday). There are **4 colours** to choose from (black, navy blue, grey & yellow). The logos from the sleeves "**Atari**" and "**Gdańsk**" were transferred to the back.

Project by [m00nie / Mystic Bytes](#).

PRICE: **22 EUR**

By purchasing a T-shirt, you support the budget of the event related to covering part of the costs. There is not much time left, but I believe that we will succeed!

Thanks in advance!

If you are interested, please fill in the form at the following link:

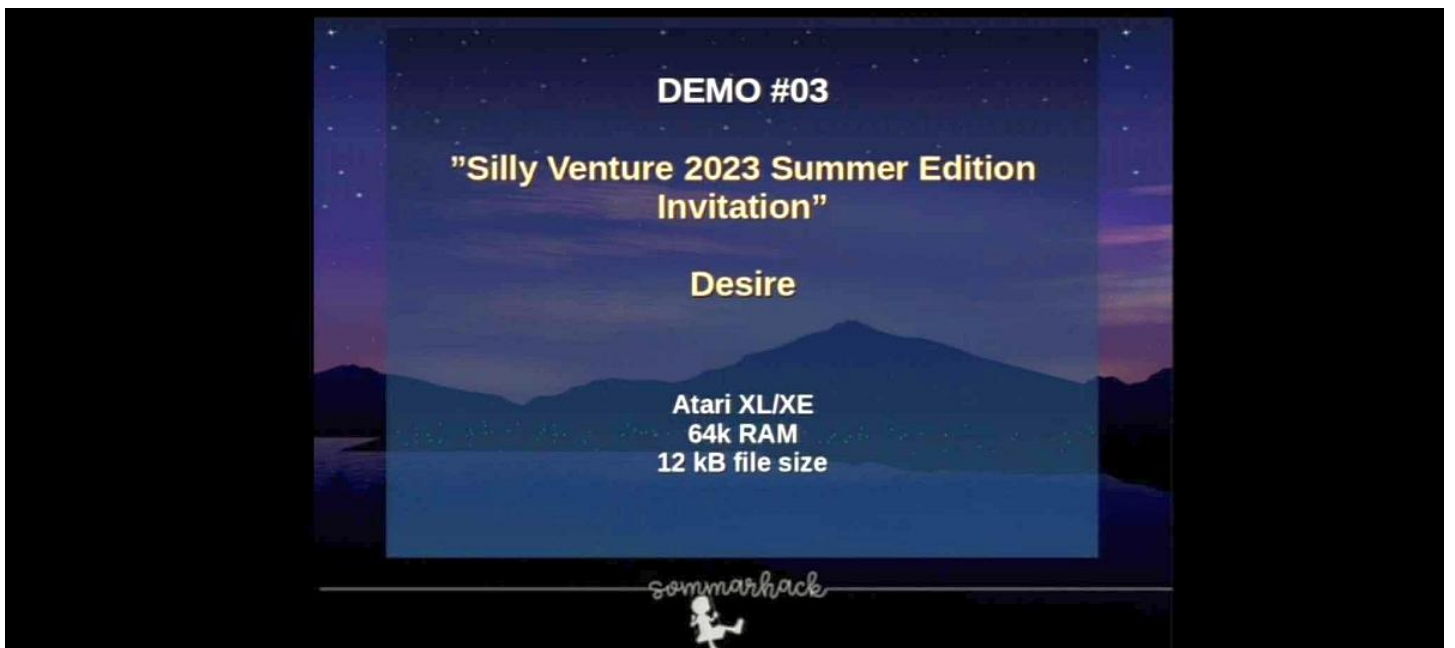

SV2023SE **T-SHIRTS** **FORM** - **ORDERS**
https://docs.google.com/forms/d/e/1FAIpQLSeebJkMntfi1OyYgRcpmH4N8Ojrv_IV7yBkSDibwi78Fhrx8Q/viewform

There is a possibility of personal collection at the event, or shipping by mail. If someone has not received his previous T-shirt, he didn't make it to the party, etc. - don't worry and report this fact to me. Certainly nothing was lost :)

Sorry for the delays.

At the ending Atari party **Sommarhack** in Sweden, another invitation related to the summer edition of our event for **Atari XL/XE** was presented! It was prepared by the **Desire** group - **Heaven** was responsible for the code, **Alien** for the graphics, while the musical setting was taken care of by **Miker**, who masterfully "transferred" the cult YM2149 track of **Mad Max** from Atari ST! (chapeau bas, Michal!).

More news about our event soon!

📅 2023-04-26

During various events this year we had the opportunity to invite participants of other events for the biggest Atari gathering in Poland - Silly Venture 2023SE and WE! Our ads have appeared on "FOReVER 2023" in Slovakia, as well as "Revision 2023" in Germany and "Grawitacja 2023" in Poland. Thank you to the organizers of these events for the opportunity to present our beam-slides and also to the authors of great intros in the form of competition entries for Atari 7800 and Atari XL/XE - Eagle & Heaven.

Atari XL/XE Invitro:

<https://www.pouet.net/prod.php?which=94088> (<https://www.pouet.net/prod.php?which=94088>)

But beware: a new, "after party" version is being created! We'll let you know as soon as it's released 😊
All invitations for SV (older and newer) can be found on the DEMOZOO website:

<https://demonzoo.org/parties/4590> (<https://demonzoo.org/parties/4590>)

If you have a profile on [POUET.NET](https://www.pouet.net/) (<https://www.pouet.net/>), please leave any "trace" there in the comment under these invitros. For us, the organizers, it is not appropriate... you know 😊

📅 2023-02-23

We are honored to present you the first invitro for the summer edition of Silly Venture 2023SE (August 17-20, 2023, Gdansk/POLAND)! Platform: Standard Atari XL/XE, with at least 48kb of RAM.

Have fun watching!

📅 2023-01-31

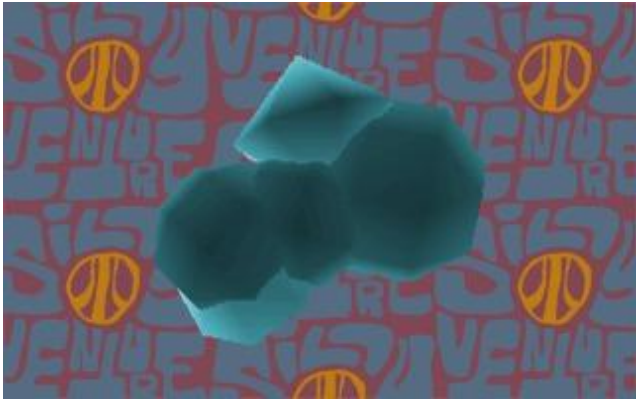

Colleague PPs prepared as many as 4 conversions of the SV2022SE logo in the Atari XL/XE version in *.g2f format for people who would like to use it in their entries.

Archive download link: https://www.sillyventure.eu/download/sv2023se_logos_a8_g2f.zip
(https://www.sillyventure.eu/download/sv2023se_logos_a8_g2f.zip)

📅 2023-01-28

Some of you are probably wondering what the new SV logo would look like in the intro or demo. m0Onie/Mystic Bytes did a little "simulation" - check it out!

📅 2023-01-27

Since many people ask me about the new venue, I decided to make a quick video to present it! A few more words about the new place:

- the new venue is only 1 km from Gedanus!
- 1km to the old town!
- buffet on site!
- free beer without limits!
- small sleeping room on site!
- pizzeria and cafe on the ground floor of the building!
- smoking area
- free parking!
- "Biedronka" market 120m from the party-place!

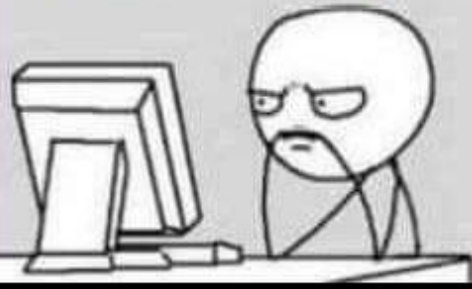

📅 2023-01-27

We also know from certain sources that after the barely completed winter edition of SV in December 2022, the authors of the entries started preparing news ones for the (as yet unannounced!) summer edition of SV2023SE 😊
For some of you, greeting the new year looked more or less like the attached picture 😊 Thank you!

Many of you have already seen this photo on my private FB profile... Some took it literally, others noticed a different content in it... 😊 The truth is in the middle 😊 The summer edition of SV will not be on the ship, because I managed to find a very nice venue that can become a permanent base for the next editions! 😊 However, I don't

give up on the idea that you can see in the photo... what exactly do I mean? You'll find out in a while! 😊

📅 2022-12-25

Ho ho ho! Finally, we are able to provide all compo stuff and results in ASCII version (included in ZIP). If you updated your entry by Friday, December 23, don't worry - the package contains the updated version, even if for some reason you forgot to send it to us :) Merry Christmas and Happy New Year 2023! CU this summer!
