WELCOME !

"Look where we are

In your wildest dreams

did you see us this far

Just look where we are"

We welcome you back to our humble doors! :) We just celebrated the **50th anniversary of ATARI** together, meeting on the 34th floor of the "Olivia Star" skyscraper in Gdansk to honor the equipment of the giant from Sunnyvale: **VCS, XL/XE, ST/STE, Portfolio, Falcon, Lynx and Jaguar**, and the next, this time **winter edition** of the biggest event in the world dedicated to fans of **Nolan Bushnell** and **Jack Tramiel** is approaching! Both of these gentlemen will be exceptionally honored at the **15th edition of Silly Venture from 8th to 11th December this year** - **Nolan**, because this year is the **45th anniversary of the Atari2600 VCS console**, and **Jack**, because **30 years have passed since the premiere of the amazing Atari Falcon computer!** You can't miss it - **SV** is the biggest and most unconventional event dedicated to the pioneer of electronic entertainment from Silicon Valley.

You're welcome!

Grey / Mystic Bytes
